13<sup>th</sup> April 2023

Dear Michelle,

Thank you for forwarding the Dinosaur Coast National Heritage Management Plan.

This is a very comprehensive document and, importantly, provides a clear pathway by which, policies, strategies and infrastructures can be delivered. With an increasing interest in the dinosaur tracks and ichnofossils, it is vital that the National Heritage Values of the Dinosaur Coast be protected while accommodating this interest and enthusiasm.

The Dinosaur Coast is a Broome story that needs to be showcased and told here in Broome. Whether that is through school field excursions, in-school visits, theatrical performances, community events, enjoying the Museum display or coming to the annual Broome Museum Dinosaur Open Day.

The Dinosaur Coast Management Group plays a key role in the protection and promotion of the National Heritage Listed dinosaur tracks, and the Broome Historical Society and Museum supports this initiative.

Yours sincerely,

A handwritten signature in dark ink that reads "E. M. Rabbitt". The signature is written in a cursive style with a small flourish at the end.
