Dear Michelle,

Re: GMIC endorsement of the DCNHMP.

I write you in response to your letter dated 28 February 2023, seeking endorsement from GMIC on the first ever Dinosaur Coast National Heritage Management Plan (DCNHMP).

This letter confirms, that GMIC formally endorses the DCNHMP and are privileged to have been part of developing the plan as knowledge holders and custodians for the cultural indigenous heritage aspects, within the DCNHMP management area.

We value the management plan as a tool to assist all stakeholders and parties to jointly protect and manage the National Heritage Listed Broome Sandstone and ichnofossils. For the preservation and social benefit of current and future generations to appreciate the unique natural wonder we must protect and share with the rest of the world.

GMIC looks forward to working with DCMG and all other stakeholders and interested parties in future implementation of the management plan when matters that affect GMIC's cultural heritage interests, arises.

Yours sincerely,

Daniel Roe
General Manager
